

# MonsGeek M Series QC Disclaimer

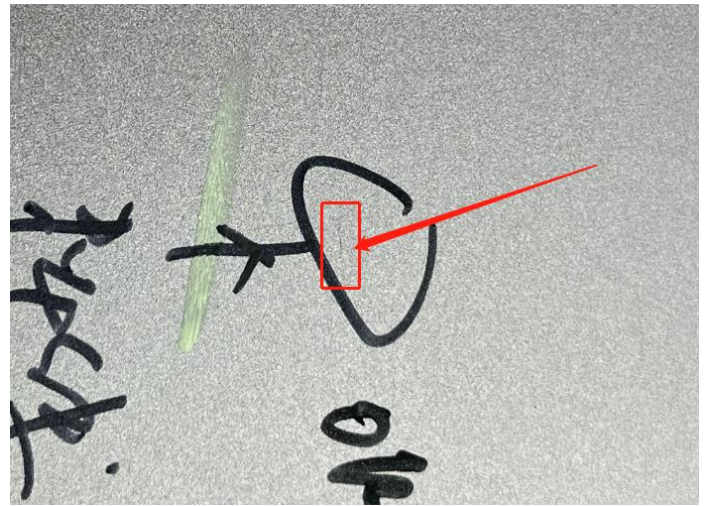

MonsGeek M series is a budget-friendly DIY keyboard kit made of aluminum.

We want to make sure that our customers understand what to expect when receiving the MonsGeek M series kit. As a budget keyboard, certain compromises have been made on the finish quality to balance the performance and cost. As a result, we would like to provide a QC disclaimer for the MonsGeek M series kit.

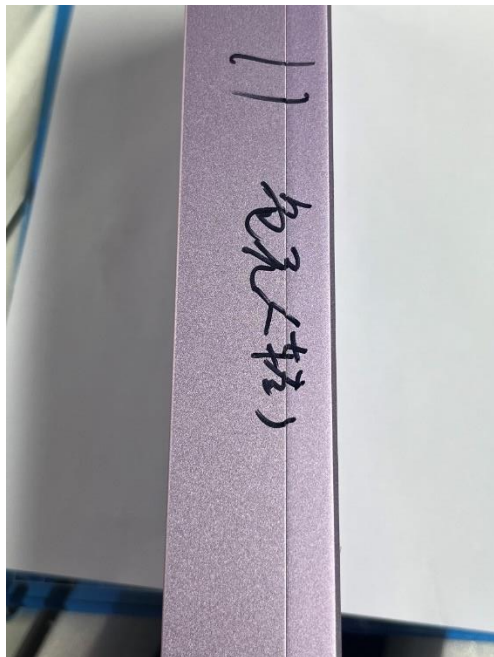

## Acceptable finishes for the MonsGeek M series kit

1. Minor scratches, dings, or scuffs on the surface of the aluminum frame or plate

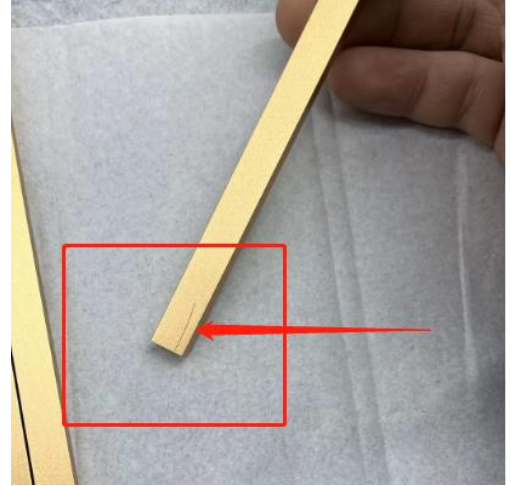

2. Slight color variations

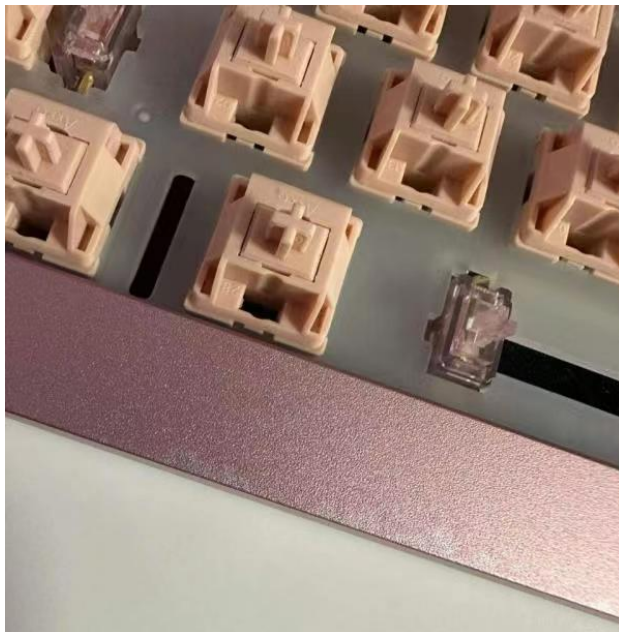

3. Interior cosmetic imperfections that are not visible during assembly and do not affect the functionality of the kit

## Finishes that are not acceptable and will be considered as defective

1. Large, deep scratches or dents that compromise the structural integrity of the kit

2. Significant anodizing defects that affect the functionality or durability of the kit

3. Distinct color variation

We strive to provide high-quality products and customer satisfaction is our top priority. If you receive a MonsGeek M series kit with defects that fall outside of our acceptable finishes, please contact us via [support@monsgeek.com](mailto:support@monsgeek.com) immediately.

Thank you for choosing MonsGeek and happy DIY building!
